- When you join the meeting, **please mute** your microphone until the meeting begins. Keep your microphone muted unless you are speaking. Consider using the chat function for informal greetings.
- Remember to **unmute to speak** and identify yourself for the minutes. Even on video, it is sometimes hard to keep track of who is speaking and some participants may be on by phone only.
- To help us identify you, please be sure you're signed on with your full name. If not, you can change your participant name by clicking on "More" (or ...) in your own video window or in the Participant list.
- To **raise your hand**, click on Participants and look for the "raise your hand" button at the bottom or on a mobile device, click on "More" and then "raise your hand." If you physically raise your hand or wave, we'll do our best to spot you, but please keep in mind that we'll have a lot of participant windows.
- Please do not use the "raise your hand" function or "thumbs up" reaction to vote. We will use voice votes, as usual, and a roll call vote if the outcome is unclear.
- Use the **"chat" function** to send messages. Remember that your message will go to everyone unless you select specific recipients. Laura Levine will be signed on as the Jump\$tart Coalition (host). You can also send a chat message to Dan Hebert or Amina Carter if you need assistance.
- We will not record the Zoom meeting, but we will keep minutes, as usual.
